Juvenile Fish

Gulps down detritus particles in the water or on bottom (student puckers and makes sucking noises while feeding).

Juvenile Fish

Gulps down detritus particles in the water or on bottom (student puckers and makes sucking noises while feeding).

Juvenile Fish

Gulps down detritus particles in the water or on bottom (student puckers and makes sucking noises while feeding).

Juvenile Fish

Gulps down detritus particles in the water or on bottom (student puckers and makes sucking noises while feeding).

Juvenile Fish

Gulps down detritus particles in the water or on bottom (student puckers and makes sucking noises while feeding).

Detritus Eater Cards

Shrimp

Stirs up mud and detritus with walking legs which lifts particles to mouth (student makes stirring motions with both arms).

Shrimp

Stirs up mud and detritus with walking legs which lifts particles to mouth (student makes stirring motions with both arms).

Shrimp

Stirs up mud and detritus with walking legs which lifts particles to mouth (student makes stirring motions with both arms).

Shrimp

Stirs up mud and detritus with walking legs which lifts particles to mouth (student makes stirring motions with both arms).

Shrimp

Stirs up mud and detritus with walking legs which lifts particles to mouth (student makes stirring motions with both arms).

Shrimp

Stirs up mud and detritus with walking legs which lifts particles to mouth (student makes stirring motions with both arms).

Detritus Eater Cards

Snail

Licks up detritus with specialized tongue called radula (student displays licking motion, using one hand as the radula).

Snail

Licks up detritus with specialized tongue called radula (student displays licking motion, using one hand as the radula).

Snail

Licks up detritus with specialized tongue called radula (student displays licking motion, using one hand as the radula).

Snail

Licks up detritus with specialized tongue called radula (student displays licking motion, using one hand as the radula).

Snail

Licks up detritus with specialized tongue called radula (student displays licking motion, using one hand as the radula).

Snail

Licks up detritus with specialized tongue called radula (student displays licking motion, using one hand as the radula).

Detritus Eater Cards

Clam

Filters detritus from water using syphon (student uses hands as syphon).

Clam

Filters detritus from water using syphon (student uses hands as syphon).

Clam

Filters detritus from water using syphon (student uses hands as syphon).

Clam

Filters detritus from water using syphon (student uses hands as syphon).

Clam

Filters detritus from water using syphon (student uses hands as syphon).

Clam

Filters detritus from water using syphon (student uses hands as syphon).

Detritus Eater Cards

Oyster

Filters detritus from water using gills (student waves arms back and forth in air).

Oyster

Filters detritus from water using gills (student waves arms back and forth in air).

Oyster

Filters detritus from water using gills (student waves arms back and forth in air).

Oyster

Filters detritus from water using gills (student waves arms back and forth in air).

Oyster

Filters detritus from water using gills (student waves arms back and forth in air).

Oyster

Filters detritus from water using gills (student waves arms back and forth in air).
